

# Serenity Salon

---

## Services Details & Explanations

**Designer Cuts** - All of our clients are given a full consultation before starting any of our designer cuts. This includes listening to our clients and helping them decide which style will best suite them according to their lifestyle and facial shaping. We specialize in all cutting techniques including; razor cutting, point cutting, and clipper cutting. All of our cuts include a shampoo and style.

**Styling** - When it comes to styling we do it all, including: Up-do's, cascade curls, round brushing, straightening or setting on rollers. We have a passion for making you look and feel your best.

**Special Event Styling** - Serenity Salon specializes in styling for proms/dances and wedding parties.

**Coloring** - With years of combined coloring experience, we consider ourselves color specialist here at Serenity Salon. Whether you're looking to cover gray, add some natural highlights or want something bold and creative we do it all.

**Corrective Coloring** - The most common need for this service is Patrons who do "at home coloring". Once the hair has become a darker shade then desired, or the roots and ends are different shades, it becomes necessary to have the professionals fix your results. Bottom line is "store bought" color will not lift color.

**Perms** - We offer a wide range of texturing/perming techniques; Soft wave, Body wave, Spiral curls, and the conventional medium to tight curls. Now available is the new Beach wave perm. Let our professional stylist help you decide which of these best suites your hair type. All of our Perms include a haircut & style.

**Swedish Massage** - It involves the use of kneading, stroking, friction, tapping and vibration which can provide relief from stiffness, numbness, pain, constipation and other health problems. Most of all this is a very relaxing experience.

**Paraffin Treatment** - Paraffin therapy is one of the most effective methods of applying deep heat to relieve pain and stiffness. The warm paraffin also moisturizes for healthier looking, softer skin. Areas of treatment would be Hands, Feet, and Elbows

**Facial** - You will enjoy a good cleansing, toner, pressure point massage, mask and protective cream perfect for your skin type.

**Back facial** - This is a deep cleansing treatment for your back, focusing on purifying this hard to reach area through exfoliation, extractions, and a relaxing massage. Your back will love this treatment! Our back waxing service goes well with this treatment.

**Salt/Sugar Scrub** - These treatments can be done on the full body or in just specific areas such as hands and feet. It's like a massage and exfoliation all in one.

**Waxing Services** - Waxing is possibly the best solution for body or facial hair control and management. We offer all types of facial waxing and body waxing.
